APPEAL MADE FOR FINANCES

The last finishing touches are being put on the three summer camps which open next week under the auspices of the Summer Outings Committee of the Associated Charities. In many a home in the city, where, for lack of means, other vacation before they leave the city. Those who have volunteered for Camp Good Will are as follows: Dr. Jesse H. Ramsburgh, Dr. Victor Hammond, Dr. Joseph Heller, Dr. Dwight G. Smith, Dr. Joseph B. Egan, Dr. Joseph B. Egan, Dr. J. L. Thompson, Dr. E. L. Mason, Dr. R. Thomas West, Dr. George B. Heinicke, Dr. Alfred C. Norcross.

More Money Needed.
The great need of the committee at the present time is money—more money. To feed and care for 200 children and their guardians a week, which is the quota provided for at the camps, is an expensive proposition. At least \$500 a week is needed for this purpose.

The aim of the committee is to provide a place and a two weeks' outing for every poor child in the city of Washington, who can be benefited and who must otherwise go without a country holiday. The spirit of the givers is illustrated by a letter such as this:
"I send you my check for \$10 to help the good work among the children and babies. A good friend has helped me with my subscription, and we each wish it were more."

The summer outings committee of the Associated Charities, 22 E Street Northwest, through its treasurer, Andrew Parker, acknowledges the following contributions for Camp Good Will and Get Well: John D. Rhoads, \$2; Miss C. Marion Toomey, \$1; P. S. Alterman, \$1; Herbert S. Bailey, \$1; Miss Maude M. Keck, \$2; Mrs. William A. Slater, \$15; "Anonymous," \$5; R. G. PLANS CREDIT SYSTEM

United States Minister Gravstad reported to the State Department yesterday that Uruguay is planning to adopt a farmers' credit system, which he believes will result in furthering the sale of American agricultural implements in that republic.

According to the plan recommended to the National Assembly by the president of the republic, a section of rural credit is to be established in the Bank of the Republic, which is the central bank of Uruguay. This section is to lend money to rural banks, or in the absence of banks, to farmers' associations, which in turn will make loans on land mortgages to the farmers.

It is expected that a large part of the money thus loaned will be spent in the purchase of agricultural implements and machinery. Most of the farm machinery will be bought on a co-operative basis, in order that the farmers may be enabled to have the use of the most expensive and modern agricultural machines.

SOCIETY TO ATTEND.

Sons of Revolution to Attend the Fourth Celebration.

At its recent meeting of the board of managers of the District of Columbia Society of the Sons of the Revolution it was unanimously voted to accept the invitation of the Commissioners of the District of Columbia to be present at the commemorative exercises to be held in the Hall of the Americas, Pan-American Building, at 10 o'clock on the morning of July 4.

The members of the society expect to attend these exercises in a body.

TARIFF BOARD BIDS
FAREWELL TO TAFT

Members Pay Respects to President on Eve of Being Legislated Out of Office.

The members of one of President Taft's pet institutions, the Tariff Board, called on the executive yesterday to take farewell, since their future existence is not provided for. The sundry civil appropriation bill, now before Congress, eliminates this board, which has been provided for from year to year. However, since the appropriation bills have not been passed, and a joint resolution is necessary to continue current appropriations for another month, it appears that the board may be given a month's lease on life. The resolution, as made public by Representative Fitzgerald, chairman of the House Appropriations Committee yesterday, and which will be presented by him Monday, does not mention the Tariff Board, and accordingly, it will be carried along with the other government activities.

H. C. Emery, chairman of the board, stated last night that even if it should be overlooked in the resolution and be permitted to continue, it would not undertake any new business. In addition to Chairman Emery, the board consists of Alvin H. Sanders, James B. Reynolds, W. M. Howard, and Thomas W. Page, the latter two being Democrats.

THREE POWER BOATS
TO PATROL POTOMAC

Custom House, Bureau of Navigation and Revenue Cutter Service to Carry on Inspection.

Within several weeks there will be three power launches plying the Potomac in search of violations of the pilot rules among small craft. This announcement was made last night by Whitefield McKim, Collector of the Port of Georgetown.

One boat will be operated by the Custom House. The second will be maintained by the Bureau of Navigation, and the third will be manned by members of the Revenue Cutter Service.

James E. Nyman, Deputy Collector of Customs, has been detailed by Mr. McKim to assume charge of the inspection crusade. Mr. Nyman will begin to prepare for the work early this week.

Following a conference some time ago between Mr. McKim and officials of the Bureau of Navigation that branch of the government work near the city, left the navy yard shortly after 2 o'clock yesterday afternoon for Baltimore. The revenue cutter Yamacraw is still in the Annapolis River. As long as she remains occasional inspection trips will be made by power boats belonging to her. With this inspection service, Custom House officials hope to make the Port of Georgetown one of the best in the country. All violations of the law will be noted, and offenders will be shown no leniency. The inspection boats will slip silently up and down the Potomac on nights when the river is crowded with pleasure-seekers who are little expecting the appearance of the minions of the law.
